

## Reflection foil 600 x 1200 mm (orange)

Item No.: 500114

Reflective foil for self-fitting of DLS/FLS.

The reflective foil provides a defined measuring target, to improve signal conditions reflected to the DLS/FLS measuring device. It must be used for distances greater than about 65 meters. These reflective foils work over distances from ~25 m to 150 m for the DLS and ~0.5 m to 500 m for the FLS.

**Size:** 600 x 1200 mm, ±5 mm
