

Accessories for Starter Kit EDS

Item No. 500592

The EDS Starter Kit accessories are made for configuring the EDS for the measuring range and the analog output. The kit includes all necessary components.

Contents

- 1 RS-232 configuration cable (500204) to connect the EDS sensor to a PC via an RS-232 serial interface
- 1 Power supply with worldwide usage possible due to wide range input - 100 to 240 VAC - and primary plug system
- 1 CD-ROM with the EDS Start-Up software

!!! EDS sensor must be ordered separately !!!

System requirements

PC system software must support .NET Framework
 RS-232 serial interface
 In case of only a USB interface on the PC , use the USB/RS-232 converter (500209)
